

Distributed Outsourced Software Engineering (DOSE)

Project report DOSE 2014

Group: Group5

Requirements team: PUCRS3

Developers teams: Milan1, Rio Cuarto5

Deadline: Monday Dec. 15th 4pm (CET)

Requirements considered the one we got after requirements consolidation. It is in google code svn repo and here it is [google docs link](#).

Which requirements have been implemented

RP 001, RP 002, RP 003, RP 004, RP 005, RP 006, RP 007, RP 008, RP 009, RP 011, RP 012, RP 013, RP 014, RP 015, RP 017, RP 019, RP 025, RP 027, RP 028, NFR 1, NFR 2, NFR 4, NFR 5, NFR 6, NFR 7, NFR 8

Which requirements have not been implemented

NFR 3, NFR 9

New requirements

NFR 10: Security: hashed and salted passwords

Open issues

Load testing

Requirements testing

Refactoring code, code optimisation

Testing on mobile devices

Security testing: CSRF, SQL injection

Conclusion

All functional requirements were fulfilled. The system is still required thorough testing, bugfixing and fulfilling some non functional requirements, but most of the work is done.
